Introduction of Speakers

(in order of appearance)

1) IDCon - Christer Idhammar

Christer Idhammar, Founder, Executive Vice President and CEO of IDCon, is a world renowned expert within reliability and maintenance. He started his career in the Swedish merchant marine where he started developing fundamentals of his results-oriented reliability and maintenance management concept. During the last 40 years this concept has evolved during his time as mechanic crafts person, engineer, manager, consult, educator and philosopher, reliability guru and company leader. As a consultant he started the Idhammar group of companies in 1972 and his own company in USA 1985 -IDCON, Inc. in Raleigh, North Carolina, USA.

In recognition for his international contribution in the field of Reliability and Maintenance, he received the coveted Euromaintenance Incentive award during the biannual Euromaintenance 2002 conference in Helsinki in June 2002.

In 2008 he received the Salvetti Foundation Best Presentation all categories award among 158 international presenters during Euromaintenance 2008 in Brussels Belgium.

2) PCA Tomahawk - Bruce Kummerfelt

Bruce Kummerfeldt is currently the Manager of Health and Safety at Packaging Corporation of America's Tomahawk Mill. Mr. Kummerfeldt received his Master of Science Degree in Loss Control and Risk Management from the University of Wisconsin in Stout.

Mr. Kummerfeldt has worked in the Pulp and Paper industry for over 20 years and currently sits on the Board of Directors for the Wisconsin's Council of Safety.

3) CR Meyer - Bob Mayer

Bob is a Senior Vice President for CR Meyer and Sons Company based in Oshkosh, WI. In business since 1888, CR Meyer has been servicing industrial clients throughout its entire history with a focus on the Paper Industry. Throughout the past several decades CR Meyer has extended its services to industrial clients throughout the United States.

Bob graduated from Marquette University in 1993 with a BS in Civil Engineering and a minor in Business Administration. He began working with CR Meyer in 1993 as a field project engineer and has been involved in Paper Industry projects for his entire 17+ year career.

Bob was Instrumental in opening satellite offices in Chester, PA; Tulsa, OK; and Marysville and is currently responsible for the operations of all three. In addition, Bob oversees the Marketing Department and assists in business development.

4) Verso Paper - Chris Moore

Chris Moore is a Manufacturing Support Manager based out of the Verso Paper corporate office in Memphis. His primary duties revolve around reliability, with an emphasis on systems, training, and execution, execution, execution. He has been with Verso for 4 years, with no previous Pulp & Paper industry experience. A major reason he was brought on board was due to my 'outsiders' perspective.

His background prior to joining Verso Paper was management consulting for various firms for 10 years. Chris is a graduate of Purdue University and I live outside of Flint, MI.

5) Timken - Ken Holmes

Ken Holmes works for The Timken Corporation as Group Leader Service Engineering for Central Region. He started with The Torrington Company as a Test Engineer in 1994 and moved to Field Service Engineering in Wisconsin in 1998. He has responsibility for the Central US Service Engineering team since Timken acquired The Torrington Company in 2003. Ken is a graduate of Clarkson University BSME.

6) Pruftechnik - Tom Coombes

Thomas Coombes is the general manager with Pruftechnik Service, Inc., in Blackwood, New Jersey. He has been with the company since 2007 and was extensively trained on the use of the PARALIGN Inertial Alignment System in both the US and at Pruftechnik's headquarters in Germany. He earned his engineering degree at the University of Delaware

7) Voith Paper - Al Martin

Al Martin graduated from Lakeland College with a Bachelor in Business Administration. He has worked for Voith Paper for over 30 years and about 18 years in field service management. Al is based out of Appleton and manages the Technical Services group of Voith Paper, which provides mechanical support throughout the North American paper industry.
